## PACKING LIST

Here at Casa La Caleta, we live by the ABCs: Always Be Crushing. You'll be fishing and exploring in a hot, dry, sunny part of Baja, with long days on the water and two nights in La Paz—one before and one after your stay at the lodge. This packing list is designed to be simple, focused, and easy to scan so you can arrive prepared and ready to practice those ABCs from the moment you hit the water. Please read carefully and come ready to crush.

We provide all the essentials on-site (boats, captains, food, drinks, flies, etc.); This list is what you should bring to stay comfortable, protected, and ready to fish hard.

- ◆ Nippers / pliers / multi-tool
- ◆ Personal fly box (if you like your own patterns – not required)

### GEAR (RODS, LINES, & FLIES)

We have high-quality tackle and flies on hand, but if you enjoy fishing your own here's what works best in our fishery.

#### RODS

- ◆ 2 x 10-weight rods – your primary workhorses
- ◆ 1 x 12-weight rod – for bigger fish & heavier wind
- ◆ There are triggerfish on the flats. If you desire to pursue these guys, bring one 8wt with floating line and a few bonefish/permit flies)

#### REELS

- ◆ Saltwater-safe reels with strong, smooth drag systems
- ◆ Make sure they're well-maintained and loaded with 250-300 meters of quality backing. We have had giant roosters almost spool us.

#### FLY LINES

Intermediate tropical lines are the standard here:

- ◆ Rio Tropical Outbound Short – Intermediate
- ◆ Scientific Anglers Jungle Clear Tip – Intermediate
- ◆ Scientific Anglers Sonar Titan – Intermediate
- ◆ You can fish poppers here ... and it can be exhilarating!! If you are focused on popper fishing, prepare one of your reels with a good floating GT style line.

#### LEADER MATERIAL

Fluorocarbon spools:

- ◆ 20 lb
- ◆ 30 lb
- ◆ 40 lb
- ◆ 50 lb
- ◆ 60 lb

#### FLIES

Casa La Caleta provides flies, but if you like to bring your own, focus on sardina profiles and lively baitfish patterns:

- ◆ EP Sardine (olive/white or tan/white)
- ◆ Other sardine-style baitfish in similar colorways
- ◆ Shaughnessy's Nyacca Batifish (cotton candy or olive)
- ◆ Gym Sock Fly
- ◆ Joe Dirt Fly
- ◆ Kinky Muddler
- ◆ Other sparse, synthetic baitfish flies with good movement
- ◆ For Popper fishing, we like the NYAP fly!
- ◆ If it looks like a panicked sardina trying not to get eaten, it probably belongs in your box.

### BRING YOUR OWN FUN

Fishing pristine waters means finding untouched places ... and that means limited options in terms of night life and entertainment. Our lodge is no exception. So, don't hesitate to bring along a good novel, a deck of cards, an ukulele, a book of crosswords, a game to share, or anything you feel would add to the experience. We've already got a bunch of things to share with y'all, too, with these same ideas in mind :)
